A Guide to Art & Architecture

We’ve put together two tours to help you explore Holland: one is for walkers, the other more suitable for driving. The red walking tour route highlights many Downtown statues and historic buildings, and takes you through Centennial Park, Holland’s former “town square”, and the Hope College campus. The orange route, which is more suitable for driving, allows you to see more of Holland’s outdoor art, including numerous pieces made from recycled scrap metal. Their repurposed nature speaks to the thriftiness and creativity which makes up the fabric of Holland.
